About Me

Motivated Software Engineering student at GISMA University of Applied Sciences in Berlin. Background includes strong technical hands-on experience in IT support, network administration, and systems troubleshooting. Currently expanding core development skills to transition into building modern web applications and software architectures.

Education

GISMA University of Applied Sciences	Berlin, Germany
Bachelor of Science in Software Engineering	May 2026 – Present
Current Focus: Software engineering baselines, programming logic, and web application designs.	

Govt Degree College	Kandiaro, Pakistan
Intermediate Examination (Pre-Engineering)	2017 – 2019

KMA Boys School	Karachi, Pakistan
Secondary School Examination (Computer Science)	2014 – 2016

Work Experience

Saqib Rose Academy	Karachi, Pakistan
IT Support Specialist	Jan 2020 – Dec 2023

- Provided end-user support for operating system errors across Windows, macOS, and Linux hardware layouts.
- Fixed local network drops and kept infrastructure system logs to optimize lab computers.
- Managed cloud licensing frameworks and user authentication using Active Directory and Office 365 suites.

Technical Skills

- **Web Tech & Languages:** HTML, CSS, JavaScript (ES6), basic Bash scripting
- **Operating Systems:** Linux distributions (Ubuntu/Debian systems), macOS, Windows Server
- **Systems Management:** Active Directory administration, local area networks (LAN/WAN structures)
- **Development Utilities:** Git, GitHub version control systems, Jira tracking tools, Confluence

Language Skills

- **Urdu:** Native proficiency
- **English:** Advanced / Professional level (CEFR C1 level equivalent)
- **German:** Basic language student (Currently learning in Berlin, CEFR B1 level)

Other Skills

- **Organizational Skills:** Experienced with managing technical equipment inventories and setting up hardware infrastructure under tight deadlines.
- **Communication:** Skilled at breaking down tricky tech failures into clear, simple descriptions for non-technical clients, built up through active helpdesk support roles.
